High School

DVN Sr Sec School

April 2016 – June 2017 | Faridabad, India

Skills

- Spring Boot
- Hibernate
- JDBC
- Core Java
- JSP Servlet
- Rest API
- HTML
- CSS
- JavaScript
- Bootstrap

Awards

Front End Development Agile Activity

We worked in groups on a project which was very useful for future use.

Professional Experience

4achievers Pvt Ltd.

Java Developer

August 2023 – March 2024

As a Java developer with 8 months of experience, I have been responsible for developing, and maintaining the back-end components of web applications. Working closely with cross-functional teams, I have contributed to the entire software development lifecycle, from the concept to the deployment.

Projects

Blogging App

- This web application is used for blogging and sharing your thoughts using only Java.
- I have performed crud operations while doing this project so that we can get and fetch data.
- To develop a simple, intuitive, and responsive application that allows users to perform CRUD (Create, Read, Update, Delete) operations on personal notes. The project demonstrates the integration of **Hibernate ORM and JPA** in a Java Back-end API application environment.

Internet Mailing System

- An Internet Mailing System application where the admin can send mail everywhere
- HTML, and CSS, Backend technology used JSP and Servlet with MySQL, also used hibernate to connect the project with the database.

Noted Taker

To develop a simple, intuitive, and responsive web-based note-taking application that allows users to perform CRUD (Create, Read, Update, Delete) operations on personal notes. The project demonstrates the integration of **JSP, Servlets, and Hibernate ORM** in a Java web application environment.

Certificates

- Java Full Stack Development from 4Achievers Private Limited
